## THAT WAS THEN:

“Everyone has some idea about the ‘Will to Live.’ ... Exactly how this emotive force translates into biologic stamina is not scientifically certain. ... We can’t measure the will to live, guarantee it, or even be sure of our own until it’s provoked.”

*The Meaning of Health: The Experience of a Lifetime, by Gary Allan Ratson*

(Nurses) “can’t measure caring and intuition and other tools of medicine. They can’t measure “Will to Live,” but I’ve seen it make all the difference in a patient’s getting well or dying.”

*New Yorker Magazine – article by 15-year nurse Terry Daniels*

## THIS IS NOW:

“Will to Live” ~ *Knowable, Measurable* ~ Expand to 100%

## Then...

Over time, “energy baggage” builds up in a person’s mind, body and spirit.

This leads to declining health on all levels. Life energy and the “Will to Live” seem destined to move to lower and lower levels, until there is no “life” left worth living!

Health Maintained  
Over Time

"Natural" Health Over Time

Energy Essentials perfected a program called "Personal ENERGY Success."

This series empowers individuals to be in control of their personal energy and vitality.

## Experience It For Yourself! "Physicians **ENERGY** Success"

Energy Essentials gifts a complimentary session for you to personally experience energy measuring. This takes only a few minutes – no clothing-removal or "hopping on the table."

You'll be one of the first physicians to experience this powerful energy "technology." You'll be eager to share this colossal advance with your patients.

Your patients are interested in a wide variety of modalities for health improvement and maintenance. You can be among the first to offer this powerful technique... One that offers demonstrable, measurable information on an aspect of health that – up until just a few years ago – had been considered unknowable.

*Imagine how this positions YOU as a leader in your field and your community!*
